Introduction

Welcome to the College of Biblical Studies - Houston

Whether you are a current or prospective CBS student, faculty, staff, or simply a visitor to our website, we would like to thank you for taking time to read the College of Biblical Studies – Houston 2025 Crime Awareness, Campus Security and Sexual Assault Data Annual Report. CBS is committed to a campus community with the safest and most secure environment possible for everyone.

The *Jeanne Clery Disclosure of Campus Security Policy Statistics* report is prepared to communicate campus crime statistics, policies, and security information. The CBS Security Team takes the instruction and learning of God’s Word very seriously, but the safety of our students, faculty, staff, and visitors are a high priority as well.

Jeanne Clery, a 19-year-old Lehigh University freshman, was assaulted and murdered in her dorm room in April 1986. The Jeanne Clery Act was enacted in the belief that crime awareness can prevent campus victimization. The law requires colleges and universities receiving federal funding to prepare, publish, and distribute, by October 1 of each year, campus security policies and crime statistics. These campus security policies and crime statistics must be distributed through appropriate publications or mailings to all current students and employees and made available to any applicant for enrollment or employment upon request.

To learn more about the *Jeanne Clery Disclosure of Campus Security Policy Statistics Act* please visit <http://clerycenter.org/>.

This report provides evidence of a safe campus environment for the study of God’s Word. Campus crime, arrest, and referral statistics include those reported to CBS Campus Security as well as to designated campus safety authorities. This report includes statistics from the previous three years for specified crimes reported on campus and on public property within, or immediately adjacent to and accessible from the campus.

This report also includes institutional policies concerning campus security, sexual violence, alcohol and drug use, crime prevention, the reporting of crimes, and other matters. The report is available on the [Annual Crime Report](#) webpage under the Houston tab. Persons may also obtain a printed copy of this report from the Director of Real Estate Operations located in suite #109 in the Houck Academic Center at 7000 Regency Square Blvd. In addition to the Annual Security Report, CBS Campus Security maintains a daily log of crimes committed on campus, which is also available from this office.

Preparing the Annual Security Report for the disclosure of campus crime statistics:

CBS compiles and publishes this Annual Security Report on or before October 1. CBS gathers statistics from all “campus security authorities” as defined by the Clery Act for inclusion in this report.

Persons and organizations to whom reports of crimes and emergencies should be made for the purpose of making timely warnings and for inclusion in the Annual Security Report.

For the purpose of making timely warning to the CBS community, reports of crimes and emergencies should be made directly to CBS Security. When the crime or emergency concerns the safety and welfare of the CBS community, CBS issues a Security Alert through the CBS email system and the posting of notices in the campus facilities and classrooms.

Security staff:

Security officers are contracted staff through Professional Guard and Patrol (PGP) Inc. They are hired and trained by the company and provide security and parking enforcement services in coordination with the CBS Facilities Operations Department.

Confidential reporting of crimes to the College of Biblical Studies - Houston:

CBS strives to protect the identity of those reporting crimes to the extent that the law allows. CBS does not usually accept anonymous reports unless the information can be substantiated by means other than the caller’s veracity. If a police report is made, CBS cannot ensure privacy of the complaint as it is a public record.

Safety and access to campus facilities:

The CBS campus is owned and operated by the College of Biblical Studies – Houston. It is unlawful for any person to trespass on the grounds or to damage or deface any of the buildings, statues, monuments, memorials, trees, shrubs, grasses, or flowers on the grounds of the campus. CBS reserves the right to refuse to allow persons having no legitimate business to enter on property under its control and may reject any person from the property on his or her refusal to leave peaceably on request. All visitors to the campus are subject to the rules and regulations of the College. CBS buildings are open to students, faculty, staff, and visitors during prescribed hours in accordance with the rules and regulations of the College.

Security considerations used in the maintenance of campus facilities:

The Facilities Department is a support organization dedicated to the educational mission of the

College of Biblical Studies - Houston. The department maintains the buildings, grounds, and utility systems, and provides custodial services for the CBS campus. Students are encouraged to report maintenance problems such as missing lights, plumbing problems or elevators that are not in service to the nearest departmental office and/or Facilities (713-545-8543) or email at facilitieshelpdesk@cbshouston.edu.

Departmental staff will forward the reports to the appropriate unit in the Facilities Department. If departmental offices are closed, please report any safety issues or emergency conditions to the CBS Security at (713) 545-8602 (non-emergency information) during open hours of operation or 911 (emergencies only).

CBS surveys campus lighting nightly and monitors those areas having defects until the defect is corrected. When maintenance is needed, that affects the immediate safety and security of the college community, CBS personnel remain onsite until the problem is corrected if needed.

Enforcement authority of CBS Security Officers and their working relationship with state and local agencies:

The [Professional Guard Patrol](#) Security Officers are the primary security authority for the College of Biblical Studies - Houston. They do not have arresting authority; however, they will work closely with the City of Houston Police Department to facilitate the arrest of any person where so warranted. CBS Security is responsible for responding to and investigating crimes on the College of Biblical Studies – Houston campus and will work primarily with City of Houston Police Department and where necessary with other federal, state, county, and local law enforcement agencies.

CBS encourages accurate and prompt reporting of all crimes to CBS Security and other appropriate police agencies:

The College of Biblical Studies – Houston strongly encourages individuals and organizations to promptly report crimes and emergencies occurring on the CBS campus to CBS Security. Campus security authorities, as defined by the Clery Act, are required to promptly report all crimes affecting the College community to CBS Security.

The College of Biblical Studies – Houston also strongly encourages individuals and organizations to promptly report crimes that occur off-campus that affect the College community to the appropriate police agency for that jurisdiction as well as the CBS Security for the purpose of warning the College community and for inclusion in the Annual Security Report.

Crime Prevention Programs:

CBS may from time to time provide crime prevention programs and/or information to educate students, faculty, and staff. CBS also encourages students, faculty, and staff to take

the necessary precautions such as walking with others on campus at night, having the security office contact information readily available and contacting security for escort assistance. Crime prevention is important to the campus community, and you can help by reporting any crime or suspected crime to CBS Security. By doing so, you may be preventing someone else from becoming a victim of a more serious crime. Any student is encouraged to call Security for an escort to their vehicle at 713-545-8602.

The policy of CBS is to maintain a drug free workplace. As a condition of continued employment, all CBS employees must comply with this policy. The term "workplace" is defined as CBS property, any CBS sponsored activity, or any other site where the employee is performing work for CBS or representing CBS. The term "drug" as used in this policy includes alcoholic beverages and prescription drugs, as well as illegal inhalants and illegal drugs and/or controlled substances as defined in schedules I through V of the Controlled Substances Act, 21 U.S.C. Sexual Violence Policy

The College of Biblical Studies – Houston (CBS) is committed to maintaining a safe learning and work environment for all students, faculty and staff and is committed to the elimination of sexual violence in all forms and will take appropriate action against any individual found responsible for acts in violation of this policy. Acts of sexual violence may also constitute violations of criminal and civil law that may require separate proceedings. To further its commitment against sexual violence, CBS provides reporting options, an investigative and disciplinary process, and prevention training and other related services as appropriate.

Sexual Violence (SaVE ACT) Purpose

As described by the Clery Center for Security on Campus: The Campus Sexual Violence Elimination (SaVE) Act represents a turning point in our nation's handling of sexual misconduct on college campuses and universities. The Sexual Violence Elimination (Save Act) seeks to address the violence people face on campus.

The College of Biblical Studies – Houston (CBS) is an education community committed to living in accordance with biblical principles and standards, community laws and regulations and ensuring a safe and supportive learning environment for all students, faculty, and staff. This policy establishes the procedures for responding to incidents of sexual violence including procedures to assist victims/survivors, hold perpetrators accountable and reduce the incidence of sexual violence.

Facts about Sexual Assault

You probably already know a victim of sexual assault. The victim could be a neighbor, close friend, relative, or perhaps, even you. Sexual assault, which is commonly known as rape, is one of the fastest growing crimes in this country and the least reported.

Women are predominantly the victims of sexual assault; however, adults and children of both sexes can also be potential victims of sexual assault. A large number of rapes are planned in advance by the attacker. Acquaintance/date rape involves someone the victim knows. Date rape is more likely to occur on the second or third date since defenses are higher on the first date.

Victims will usually feel more ashamed, guiltier, more depressed, and angrier with themselves than victims of an unknown assailant. The victim may again have to meet the assailant in a class, elsewhere on campus, or even at work.

Women in acquaintance rapes are more often confused about what is happening and who is responsible. Their confusion is heightened by the fact that acquaintance rapists, unlike stranger rapists, often become conciliatory after the assault and almost always try to remain in contact

with the victim. As a result, victims are less likely to call it rape or even understand that it is a crime.

Reporting a Sexual Assault If you are sexually assaulted, you are encouraged to call police immediately! The emergency number is 911.

Note: when contacting the police, advise them if the suspect is still in the area and if any weapons were involved.

If you are victimized, do the following items:

1. Get to a safe place as soon as you can. Go to the nearest lit public place.
2. Do not change clothes, shower, bathe, or douche. Physical evidence is needed in court such as hair, blood types, seminal fluids, and scrapings of flesh from the victim's nails.
3. Protect the crime scene. If the attack did not occur in your residence, try to recall the area you were taken so the officers can recover evidence left at the scene.
4. Get medical attention as soon as possible. A medical examination will provide any necessary treatment and collect important evidence. Injuries may not be immediately apparent. Campus authorities, including security, staff supervisors, or department heads, may assist in notifying authorities, if you wish.

It is critical for the police to be informed as soon as possible after the incident so that appropriate steps, such as gathering of crucial evidence and information can be taken.

It is always a survivor's choice as to whether or not to report a sexual assault but reporting an assault (or attempted assault) is extremely important for the protection of both the victim and the community. Reporting an assault does not mean that the survivor must prosecute.

However, it does begin the legal process if the survivor decides to prosecute at a later date. The survivor has the option of requesting a concealed identity or pseudonym during the investigation.

Talk with counselors who will maintain confidentiality, help explain your options, give you information, and provide emotional support. You can call the Houston Area Women's Center Rape Crisis Center at 713-528-RAPE (7273).

Contact someone you trust, a close friend or a family member, to be with you and to support you. This person may accompany you to the hospital or the police station if necessary. An advocate from the Women's Center Rape Crisis Program can be requested through the emergency room staff.

Pursue charges against the assailant. You may seek criminal prosecution, file charges through the college judicial process (Student Life Referral via Dean of Students Office, or sexual harassment charge), or file a civil suit.

You may have the right to compensation and financial assistance if you report the incident to

the police. Write down what happened, in your own words, to help you better remember if you decide to press charges.

Following the reporting of a sexual assault, a student or staff may request changes in their academic or employment situation. The institution will make those changes if they are reasonably available.

Identification Needed by Police

Practice being observant so that if you are attacked you will be able to describe and identify the assailant.

About Self Protection

If you sense a danger of sexual assault, try to avoid confrontation. If you cannot avoid confrontation, your own imagination and initiative are your best defenses. In any assault situation, the most important thing to remember is to remain calm and avoid being isolated with the attacker. Immediately attempt to leave the scene and go to the nearest lit public place. You may wish to attempt verbal or physical resistance.

Verbal Resistance

If the attacker has a weapon, you may decide to use verbal resistance. There are many ways to use your voice to protect yourself. Trust your feelings about whether yelling or talking calmly would help you the most.

Physical Resistance

1. The goal of physical resistance is to react immediately, use your body or other available weapons, and escape.
2. An available weapon includes objects such as an umbrella, lamp, ashtray, bottle, purse, etc.
3. Five vital targets on the attacker are eyes, nose, throat, groin, and knees. The idea is to disable rather than hurt the attacker.

Be realistic about your ability to protect yourself. Practicing rape avoidance requires action, but you must feel confident with whatever measures you decide to adopt.

Preventive Measures

Home:

1. Lock all doors and windows at all times.
2. Replace or re-key locks when you move into a new home or apartment.
3. Install a door viewer and a 1" deadbolt lock and make sure you have the only keys to your home.
4. Leave outside and inside lights on at night. Use lights in more than one room.
5. Pull all drapes and blinds completely closed to prevent someone seeing in from outside.
6. Leave a TV or radio on so it does not appear you are alone.
7. If you live alone, use your initials only on mailboxes and in the telephone directory.

8. Never open your door to a stranger. Require identification from all repairmen, salesmen, etc.
9. If you receive an obscene phone call, hang up and call the police.
10. Do not give personal information over the telephone.

Driving:

1. Never pick up hitchhikers.
2. Make certain you have enough gas to get to your destination.
3. Park in well-lit areas. When returning to your car, have your car keys ready so you can enter without delay, and look into the back seat.
4. If possible, travel on well-lighted streets and avoid isolated back roads and shortcuts.
5. Never leave your house keys with your car keys at a service station or parking lot.
6. Keep car doors locked at all times and car windows rolled up when possible.
7. If you have car trouble, raise the hood, get back inside, and lock all doors. If anybody stops to offer help, do not get out of your car. Roll the window down only enough to convey your message and ask them to call the police. Keep a "SEND POLICE" sign inside your vehicle and some change for telephone calls.

Walking:

1. Never accept a ride or hitchhike.
2. Stay in well-lit areas and avoid shortcuts, vacant lots, and other deserted areas.
3. When possible, avoid walking alone or walking in areas where other people are present.
4. Walk facing traffic; if a driver does stop and ask directions; avoid getting too near the car.

Children:

1. Children should be made aware of the dangers of accepting rides from, talking to or opening doors to strangers.
2. Children should be encouraged to talk to their parents should a problem occur with a stranger, friend or relative.
3. Children should know a safe, well-traveled route to and from school, avoiding isolated areas.
4. Teenaged baby-sitters should accept jobs only with people they know.
5. Baby-sitters should be instructed to call the police if anything suspicious happens. They should never open the door to strangers. The sitter's parents should be called at the end of the evening to inform them that the sitter will be home shortly. Parents should be well versed in their children's activities.

The information contained within this report is designed to heighten your awareness concerning sexual assault prevention. However, you may follow all the advice and safety tips recommended and still find yourself confronted by an attacker. If it happens, you will have only seconds to decide your method of defense, so you must prepare mentally for the possibility of rape happening to you. Remember, if you are sexually assaulted, it is not your fault. The Texas Penal Code defines sex crime offenses and provides penalty information for these offenses. The College of Biblical Studies – Houston has established procedures and penalties for similar

violations committed by faculty, staff, or students.

Sexual Offender Registration

In accordance with the “Campus Sex Crimes Prevention Act” of 2000, which amends the Jacob Wetterling Crimes against Children and Sexually Violent Offender Registration Act, the Jeanne Clery Act and the Family Educational Rights and Privacy Act of 1974, the College of Biblical Studies- Houston provides a link to the Texas Department of Public Safety Sex Offender Database. The URL for the website is [Texas Sex Offender Registration Program | Department of Public Safety](#).

Security Awareness and Crime Prevention

CBS utilizes the [Run, Hide, Fight video](#) that was developed by the U.S. Department of Homeland Security with the City of Houston, TX. It tells people what to do in the event of an active shooter on campus. This is located for student viewing on the [active shooter tab](#) located in the Safe Environment webpage. There is also a security awareness video for viewing as well.

 - a. Campus-wide training.
 - i. CBS will provide educational programming (brochures, posters, etc.) to students and employees to promote the awareness of sexual violence offenses, including sexual violence prevention measures and procedures for responding to incidents, and advise individuals of legal and other options available if they are the complainants of an incident or they learn of such an incident.
 - ii. Provide training on awareness of sexual violence prevention measures and procedures for responding to incidents of sexual violence. At a minimum, all incoming students and all new employees will be provided this training.

Such information will be used to report campus crime statistics on college and university campuses as required by that Act.

- c. During and upon the completion of the complaint process, the complaint file shall be maintained in a secure location. Access to complaint file information shall be in accordance with the Family Educational Rights and Privacy Act (FERPA) and other applicable law and policy.

Weapons Policy on Campus

The College of Biblical Studies-Houston (CBS) prohibits the possession and use of firearms, explosives and/or ammunition, fireworks, incendiary devices, illegal knives, or other sharp blades or other prohibited weapons on its property. CBS property includes, but is not limited to, all CBS facilities, CBS-provided parking areas, vehicles and equipment that are either leased or owned by CBS. In addition, CBS strictly prohibits the unlawful carrying or possession of any weapon in a CBS parking facility or parking area, including in employee-owned vehicles parked on CBS property. This prohibition includes any devices that might reasonably be mistaken for a firearm or weapon.

In states where it is legal, license holders may keep firearms in their vehicles while parked on campus or at an extension site. Exceptions to this policy must be authorized in advance and in writing by the administration. A confidential request for exception is available by sending an email to the Director of Real Estate Operations at CBSSecurity@cbs-houston.edu who will then have it reviewed for approval.

CBS reserves the right to request the appropriate license of any individual and to require the immediate removal of the weapon and the individual from its property. Violation of this policy may subject an employee or student to disciplinary action up to and including termination or expulsion. For more details, please visit the [Campus Carry webpage](#).

CBS Watchman Alert System

The CBS Watchman Emergency Notification System uses text and e-mail to alert CBS students and employees in the event of an emergency or urgent situation. Alert messages are sent to registered mobile phones, home phones and e-mail addresses. The CBS Watchman Alert System is the primary method for distributing emergency situations or operation related changes to employees and students. CBS will immediately notify the campus community upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on the campus.

CBS will automatically enroll employees and students in the CBS Watchman Alert System. Employees, as a condition of employment, are required to be enrolled and must participate. Students can elect not to participate in CBS Watchman by completing the [election not to participate form](#) located at [CBS Watchman Alert System](#) and submitting to the Office of the Registrar. This election must be renewed at the start of each academic year, or the student will be re-enrolled in CBS Watchman Alert System.

How Campus Timely Warning Notices are issued:

- Campus timely warning notices will be issued to students, faculty, and staff upon the confirmation of a significant emergency, dangerous situation, incident, or crime, impacting the campus community and/or the surrounding area. Generally, the warning will specify the type of reported crime, the time and location at which the reported crime occurred, and specific advice to the campus community regarding steps to take to avoid becoming a victim.
- This information may be disseminated to campus community members via a variety of mechanisms or mediums. CBS will use one or more of the following means depending on the nature of the incident:
 - CBS Watchman Alert System (text and e-mail)
 - Electronic mail messages
 - Social Media
 - CBS website www.cbshouston.edu
 - Other methods deemed necessary that may be used in the information dissemination process
 - Local media

AED Defibrillator

CBS has an automated external defibrillator (AED) which is a medical device designed to analyze the heart rhythm and deliver an electric shock to victims of ventricular fibrillation to restore the heart rhythm to normal. It is located by the front door of CBS. The device is checked monthly to ensure it works properly in time of need.

Operational Emergency Planning and Response

The College of Biblical Studies (CBS) Security and Safety Plan provides for the security, safety, and welfare of employees, students, and visitors through the establishment of reasonable practices to achieve the following:

- (1) Support a safe and secure environment at the campus and grounds owned, leased, and/or operated by CBS;
- (2) Promote safety through policies and awareness;
- (3) Provide an appropriate level of security for staff, faculty, and students during hours of operation; and
- (4) Safeguard CBS property and physical assets.

The goal is to provide a safe environment for employees, students, and the general public while maintaining an open campus environment. In an educational institution, there is a need to balance the accessibility and use of facilities with the need to provide a safe and secure environment. Convenience must sometimes be compromised to maintain safety and security. Each CBS community member must share in the responsibility to assure security for all members and property.

Campus Safety and Security

CBS strives to establish and maintain a safe and secure atmosphere at each campus location in which people can go safely about their varied activities in furtherance of the objectives.

The Houston campus utilizes a private security company. This security company is the primary response agency for all crimes and incidents on campus. They are also the liaison with local police, fire, and medical response agencies. As part of their duties, a lighting log is utilized for the exterior building and the entire campus to ensure all exterior lights are operational. It is filled out once per week by the security company in the evening.

The security officer completes a daily security report which is then reviewed by the director of real estate operations. As part of their daily inspection, they review concerns of fire hazards, safety hazards, open doors, broken windows, theft issues, property damage, blocked exits, smoking violations, exterior lights, and other potential hazards. They provide emergency assistance in the investigation and documentation of incidents. When an incident occurs, security notifies the director of real estate operations with situational details. Once notified, an incident report is created. Depending on the severity of the emergency, the crisis team (or certain members of the crisis team) may be notified and brought into the communication as well as the resolution process. Houston has security cameras onsite that utilize an NVR recording system. The cameras are strategically located in high traffic areas in both locations. The recording lasts up to 30-days.

Building Access Management

CBS takes all necessary steps to provide a safe and secure structure for the protection of its employees, students, facilities, property, and key data resources. All employees are required to wear ID badges while on CBS property. Locks, keys, electronic access cards are the sole property of CBS and will be issued to employees based on their need for access. CBS reserves the right to change locks, keys, access cards, and alarm codes as needed.

The Houston, Indianapolis and Fort Wayne locations are open based on an approved schedule and will remain locked otherwise. Approved employees have access to the building with the use of an access card during times the building is locked. No one may give another person their access card or keys without the express permission of the director of real estate operations, or his/her designee. All keys and electronic access cards must be returned to CBS upon termination of employment, upon request.

To ensure campus safety at Houston and Indianapolis, the elevator is routinely checked and maintained in proper working condition and has an up-to-date annual permit at the Houston and Indianapolis campus. Fort Wayne campus does not have an elevator.

Campus Emergencies and Alerts

As part of continued safety on campus, CBS recognizes that our campuses experience the possible risks and threats of society. As such, the college has established safety and emergency information involving personnel, procedural methods, and physical means to provide a healthy,

safe, and secure environment for students, employees, and visitors. Below are the safety related processes found on our emergency web page.

- Annual crime report / Clery Act (see below)
- Severe weather plan
- Active shooter with training videos
- Evacuation procedures
- Weapons on campus
- Fire safety emergency
- Bomb threat
- Suspicious mail or packages
- Biohazard
- Major systems failure
- Medical emergency
- Sexual violence with incident report

General Evacuation Procedures

If an evacuation is ordered, follow these procedures:

- Stay calm, do not rush, and do not panic.
- Gather your personal belongings if it is safe to do so. (Reminder: take prescription medications out with you if at all possible. It may be hours before you are allowed back into the building.)
- If safe, close your office door and window, but do not lock them.
- Use the nearest stairs and proceed to the nearest exit as outlined on the fire escape map located in each room of the building. Do not use the elevator.
- Wait for any instructions from emergency responders or received from the CBS Watchman Emergency Alert.
- Do not re-enter the building or work area until you have been instructed to do so by the emergency responders.

Evacuation Procedures for People with Disabilities

People with disabilities will often need assistance evacuating. Always ASK someone with a disability how you can help BEFORE attempting any rescue technique or giving assistance. Ask how he or she can best be assisted or moved, and whether there are any special considerations or items that need to come with the person.

Evacuating a disabled or injured person yourself is the last resort. Consider your options and the risks of injuring yourself and others in an evacuation attempt. Do not make an emergency situation worse. Evacuation is difficult and uncomfortable for both the rescuers and people being assisted. Some people have conditions that can be aggravated or triggered if they are moved incorrectly. Remember that environmental conditions (smoke, debris, loss of electricity) will complicate evacuation efforts.

Use the following guidelines:

DO NOT use elevators, unless authorized to do so by police or fire personnel. Elevators could fail during a fire or major earthquake.

- If the situation is life threatening, call 911.
- Check on people with mobility disabilities during an evacuation.
- Attempt a rescue evacuation ONLY if you have had rescue training or the person is in immediate danger and cannot wait for professional assistance.
- In particular, be aware when assisting someone with a disability.
- The individual with the disability is the best expert in his or her disability, so ask that individual for advice before lifting or moving him/her.
- Take extra time when communicating with people who are deaf, hearing impaired, or speech impaired.
- Never separate a disabled person from his or her assistive aids: wheelchairs, canes, hearing aids, medications, special diet food, urinary supplies, etc.
- A disabled person's equipment may not be working after a disaster occurs, or it may be insufficient for emergency circumstances.
- A service animal, usually a dog, is an assistive aid used by some blind, deaf, and mobility-impaired people. A disaster may temporarily confuse service animals, and they may not be able to help their owners as effectively as before the disaster.
- Some individuals with emotional and developmental disabilities may be too unsettled to respond appropriately to instructions and directions, such as a public address announcement to evacuate a building. Some disabled individuals may need to be in a quiet place for a while to regain their composure; others may even try to hide from rescue workers.
- Some individuals with significant mental or learning disabilities might not understand the significance of "Keep Out" signs and barricade tape.

Assisting the blind or visually impaired:

- Give verbal instructions to advise about safest route or direction using compass directions, estimated distances, and directional terms.
- DO NOT grasp a visually impaired person's arm. Ask if he or she would like to hold onto your arm as you exit, especially if there is debris or a crowd.
- Give other verbal instructions or information (i.e., elevators cannot be used).

Assisting the deaf or hearing impaired:

Get the attention of a person with a hearing disability by touch and eye contact. Clearly state the problem. Gestures and pointing are helpful but be prepared to write a brief statement if the person does not seem to understand.

- Offer visual instructions to advise of safest route or direction by pointing toward exits or evacuation maps.

Assisting the mobile impaired:

It may be necessary to help clear the exit route of debris (if possible) so that the person with a disability can move to a safer area.

- If people with mobility impairments cannot exit, they should move to a safer area and wait for assistance from first responders.
- Notify police or fire personnel immediately about any people remaining in the building and their locations.
- Police or fire personnel will decide whether people are safe where they are and will evacuate them as necessary. The fire department may determine that it is safe to override the rule against using elevators.
- If people are in immediate danger and cannot be moved to a safer area to wait for assistance, it may be necessary to evacuate them using an evacuation chair or a carry technique.
 - Discuss with the user of the wheelchair how to lift the user and the wheelchair either together or separately. When circumstances necessitate separating the user and the wheelchair, keep the period of separation to a minimum.
 - Some parts of a wheelchair are safe to lift, others are not. Always ask the user to confirm where it is safe to lift. Also, ask the user what else you should know about his or her wheelchair in order to lift it safely.
 - Wheelchairs with four wheels (not three-wheeled scooters) usually have handbrakes on each side of the chair. When the wheelchair is to remain stationary, set both brakes.
 - When the lifting is complete, follow the instructions of the user and restore the manual or motorized wheelchair to full operation; then direct the user to a safe area.

Power Outages

- If an outage occurs during the day and people with disabilities choose to wait in the building for electricity to be restored, they can move near a window where there is natural light and access to a working telephone. Advise emergency personnel.

Shelter-in-Place

Shelter-in-Place means to seek immediate shelter and remain there during an emergency rather than evacuate the area. It is always preferred to evacuate. Shelter-in-Place should only be used when an evacuation is not safe.

Certain events may necessitate the initiation of the College's Shelter-in-Place protocol. The President or his designee will make the decision to Shelter-in-Place. Once the decision has been made, the Director of Real Estate Operations will instruct the campus community to Shelter-in-Place. This notification will be made using the CBS Watchman Emergency Alert System.

Shelter-in-Place procedures are outlined under each emergency where appropriate. General Shelter-in-Place procedures are as follows:

Upon receiving notification to Shelter-in-Place:

- Stay in your office/classroom.
- Notify those around you and encourage others to remain in your office/classroom rather than to try to leave the building.
- Lock the doors, cover the door window, close the blinds, turn off the lights and stay calm.
- Stay away from the windows.
- Check your phone messages, email, or the College website. If a TV is available, turn it on then turn the volume off.
- Report any suspicious activity, sounds or smells to the Director of Operations or 911
- Only come out when you recognize the authority directing you to do so.

Medical Emergency

Accidents and emergencies are unpredictable. While some emergencies may only need first aid care, others may require emergency medical attention. If unsure of the seriousness, call 911. Medical emergencies involving any student or employee must be reported to the professor or staff member immediately.

Staff Actions:

- Evaluate the scene to determine what assistance is needed. Students should be kept away from the scene of the emergency.
- Assess the victim's breathing.
- Stay calm. If a coat or blanket is available, use it to keep the victim warm.
- Do not move the individual unless there is danger of further injury.
- If **911** is called, remain calm and stay on the phone until the dispatcher hangs up. The dispatcher may provide instructions on how to care for the injured.
- Stay with the injured until medical assistance arrives.
- Don't hang up until you are told to do so by the 911 operator and assist with the following.

College of Biblical Studies
Address - 7000 Regency Square Houston, TX. 77036
Exact location within the building
Nature of the emergency
Approximate age of the injured person
Your name and phone number

Basic CPR instructions provided by Red Cross:

- BLOW: Tilt the head back and listen for breathing. If not breathing normally, pinch nose and cover the mouth with yours and blow until you see the chest rise. Give 2 breaths. Each breath should take 1 second.
- PUMP: If the victim is still not breathing normally, coughing or moving, begin chest compressions. Push down on the chest 1 1/2 to 2 inches 30 times right between the breasts. Pump at the rate of 100/minute, faster than once per second.
- CONTINUE WITH 2 BREATHS AND 30 PUMPS UNTIL HELP ARRIVES - NOTE: This ratio is the same for one-person & two-person CPR. In two-person CPR the person pumping the chest stops while the other gives mouth-to-mouth breathing.

If the victim is choking:

- Make sure they are coughing and getting air.
- If the victim cannot speak or cough and you think something maybe lodged in their throat, from behind, slip your arms around the victim's waist. Make a fist with one hand and grasp with the other hand. Place your fist right above the navel area. Press into the abdomen with quick upward thrust. Repeat until the object is removed, or the victim starts breathing or coughing.

If the victim is bleeding:

- Call 911
- First Aid kits are located in the CBS Campus Store (formerly "Bookstore").
- Use rubber gloves (contained in the first aid kit) and apply pressure to the area. If possible, elevate bleeding area above level of the heart.

Active Shooter

The safety and security of our staff, faculty and students is our highest priority. It is our goal to prepare and educate the CBS community to the best of our ability for possible emergencies. With the increase in active shooter/armed intruder incidents nationwide, we believe it is best to be prepared and on how to handle an active shooter situation if it ever occurs in the future.

CBS strongly recommends viewing and becoming familiar with the tactics suggested in the ["Run. Hide. Fight."](#) video provided by the Houston Police Department and Homeland Security. Students and staff are encouraged to watch the [run.hide.fight](#) video as well and can also access It under Blackboard / Campus Security / Course Resources folder.

An active shooter is a person who appears to be actively engaged in killing or attempting to kill people in a populated area; in most cases active shooters use firearm(s) and there is no pattern or method to their selection of victims. These situations are dynamic and evolve rapidly, demanding immediate deployment of law enforcement resources to stop the shooting and mitigate harm to innocent victims. This document provides guidance to faculty, staff, and

students who may be caught in an active shooter situation and describes what to expect from responding police officers.

We cannot predict the origin of the next threat; assailants in incidents across the nation have been students, staff, faculty, and others. In many cases, there were no obvious specific targets, and the victims were unaware that they were a target until attacked. Being aware of your surroundings, taking common sense precautions, and heeding any warning information can help protect you and others on the campus.

Guidance to faculty, staff, and students

In general, how you respond to an active shooter will be dictated by the specific circumstances of the encounter, bearing in mind there could be more than one shooter involved in the same situation. If you find yourself involved in an active shooter situation, try to remain calm and use these guidelines to help you plan a strategy for survival.

Active Shooter – Shelter-in-Place

If an active shooter is outside the building:

- Proceed to a room that can be locked, close and lock all the windows and doors, and turn off all the lights; if possible, get everyone down on the floor and ensure that no one is visible from outside the room. One person in the room should call 911.
- Advise the 911 dispatcher of what is taking place and inform him/her of your location; remain in place until the police or a campus administrator known to you, gives the “all clear” announcement. Unfamiliar voices may be the shooter attempting to lure victims from their safe space; do not respond to any voice commands until you can verify with certainty they are being issued by a police officer.

If an active shooter is in the building:

- Determine if the room you are in can be locked and if so, follow the same procedure described above.
- If you cannot lock the room, determine if there is a nearby location that you can reach safely and can be secured, or if you can safely exit the building.
- If you cannot safely exit the room or building, quickly move to the same wall as the interior door, as far away from the door as possible. Quietly put something (desks, file cabinets, chairs, etc.) between you and the shooter. If several individuals are in the room, space yourselves apart to avoid becoming a “group” target for the shooter.
- Refrain from creating any loud noises and place your cell phone in “silent” mode so it does not ring audibly and reveal your location.
- If you decide to move from your current location, follow the instructions outlined below.

If an active shooter enters your office or classroom:

- Try to remain calm. Dial 911.
- Alert police to the shooter's location; if you cannot speak, leave the line open so the dispatcher can listen to what is taking place.
- Attempting to overpower the shooter with force should be considered a very last resort; after all other options have been exhausted.
- If the shooter leaves the area, proceed immediately to a safer place, and do not touch anything that was in the vicinity of the shooter.

If you decide to flee during an active shooting situation:

- Make sure you have an escape route and plan in mind.
- Do not attempt to carry anything while fleeing.
- Move quickly, keep your hands visible and follow the instructions of any police officers you may encounter.
- Do not attempt to remove injured people; instead, leave wounded victims where they are and notify authorities of their location as soon as possible.
- Do not try to drive off campus until advised it is safe to do so by police services or College administrators.

What to expect from responding police officers:

Police officers responding to an active shooter are trained in "rapid deployment" procedures and proceed immediately to the area in which shots were last heard; their purpose is to stop the shooting as quickly as possible.

The first responding officers will normally be in teams of four (4); they may be dressed in regular patrol uniforms, or they may be wearing external bulletproof vests, Kevlar helmets, and other tactical equipment.

The officers may be armed with rifles, shotguns, or handguns, and might be using pepper spray or tear gas to control the situation. Regardless of how they appear, remain calm, do as the officers tell you, and do not be afraid of them. Put down any bags or packages you may be carrying and keep your hands visible at all times. If you know where the shooter is, tell the officers. Be aware as you are attempting to exit the area. Responding officers may not recognize you and may need to confirm your identity before allowing you to proceed.

The first officers to arrive will not stop to aid injured people; rescue teams composed of other officers and emergency medical personnel will follow the first officers into secured areas to treat and remove injured persons. Keep in mind that even once you have escaped to a safer

location, the entire area is still a crime scene; police will usually not let anyone leave until the situation is fully under control and all witnesses have been identified and questioned. Until you are released, remain at whatever assembly point authorities designate.

Active Shooter Training Videos:

Training videos are offered on our safety and security website that can be viewed anytime along with the ["Run. Hide. Fight."](#) video.

Fire Safety

In the event of a fire, the alarm should be activated and evacuation of the building begun. If possible, locate a fire extinguisher and extinguish the fire. If unable, a 911 call should be made immediately. Ensure the evacuation of the building has taken place.

If you encounter smoke or flames:

- Crawl low under the smoke to get to clean air areas.
- Test the door before opening by kneeling or crouching at the door.
- Reach up as high as you can and touch the door and knob with the back of your hand.
- If the door is hot, use another escape route.
- If the door is cool, open it cautiously and continue along your escape route.
- Isolate fire by closing off doors if possible.
- Follow the evacuation route as outlined on the fire escape map located in each room of the building.
- If you are on the second floor, evacuate using stairwells. Do not use the elevators.
- Follow directions from those in authority.
- Stay calm.
- Once you are safe and the immediate emergency procedures have been followed, notify your vice president or the Director of Real Estate Operations.

Fire Drills

- Fire drills are both announced and unannounced and held at least once a year.
- Everyone on campus is expected to participate.
- Each class has a visible fire escape map. Take the exit that is assigned to your classroom, suite, or department.
- All students and staff are advised to take anything of personal value during the fire drill. Doors must be closed and locked.
- Running is not permissible while exiting the building.
- Do not stand close to the building while waiting for clearance to re-enter the premises. Everyone should find a safe location away from vehicles.
- All rooms are checked for clearance.
- The fire drill will usually last 5-8 minutes. Everyone will be permitted to enter the building once the alarm stops sounding.

- Special care and emphasis are given to our students that are in wheelchairs or have other handicapped needs.

CONCLUSION

At CBS we value safety and security as a high priority for our staff and students. We take satisfaction in the minimal number of reported crimes. However, we willingly seek the challenge of assuring a safe and secure atmosphere for our students, employees and persons who visit the College of Biblical Studies. We attempt to accomplish this by providing ample security, emergency notification, reporting procedures, weekly light checks, the addition of security cameras and timely response to issues that might periodically arise. As we review the statistical tables for our campus, we are continuing to see ways we can improve our security presence. Our goal will always be to provide the safest environment possible for our students, faculty, and staff.
